

# KMF share productivity pot of £105,000

KMF Precision Sheet Metal's 'Productivity Share Scheme' (PSS) goes from strength-to-strength, with 165 employees sharing a pot of over £105,000 (£636 each) after successfully completing the 4th annual running of the scheme. The PSS is now firmly established as KMF's preferred vehicle for encouraging, capturing and sustaining employee led improvements across all activities.

The success of the scheme is measured by the fact that some 260 employees signed up for PSS4 in April 2013 and embarked on the challenge of delivering improvements to productivity. Key to the project

is the fact that employees are not only making suggestions, but also becoming involved in their

implementation and delivery.
